**Comment Date: March 28, 2005**

**Reply Comment Date: April 12, 2005**

By the Assistant Chief, Audio Division, Media Bureau:

1. The Audio Division has before it a multiple docket *Notice of Proposed Rule Making* setting forth two separate proposals to amend the FM Table of Allotments, Section 73.202(b) of the Commission's Rules that requires the reclassification of FM Station KYKS, Channel 286C, Lufkin, Texas to specify operation on Channel 286C0.<sup>1</sup> The petitioner for each proposal has stated that it will apply for each requested channel, if allotted. Each proposal warrants consideration because it complies with our technical requirements and would serve the public interest.

2. Station KYKS operates on Channel 286C at Lufkin, Texas with an effective radiated power ("ERP") of 100 kilowatts ("kW") at 325 meters height above average terrain ("HAAT"), which is below the minimum Class C antenna height of 451 meters HAAT. Therefore, Station KYKS is subject to reclassification as a Class C0 facility pursuant to the reclassification procedures adopted in the Commission's *Second Report and Order*, MM Docket No. 98-93,<sup>2</sup> Note 2 to Section 1.420(g), and Note 4 to Section 73.3573 of the Commission's rules. To this end, we issued an *Order to Show Cause*<sup>3</sup> directed to Capstar TX Limited Partnership ("Capstar TX"), licensee of Station KYKS, Lufkin, Texas, affording it 30 days to express in writing an intention to seek authority to upgrade its technical facilities to preserve Class C status, or to otherwise challenge the proposed action. No response was received from Capstar TX. As such, in accordance with the Commission's reclassification procedures noted above, the license

for Station KYKS will be reclassified to specify operation on Channel 286C0 instead of Channel 286C at Lufkin.

3. This is a multiple docket *Notice of Proposed Rule Making* issued in response to a Commission *Public Notice* released October 2, 1998 (DA 98-1987). We are combining separate FM allotment proposals into a single *Notice of Proposed Rule Making*. Each proposal has its own docket and rule making number and the Commission's Reference Information Center will maintain a separate file for each docket. As discussed in the *Public Notice*, this procedure will conserve Commission resources and expedite the processing of FM allotment petitions for rule making by avoiding duplicative actions. We request comments and/or counterproposals to the following proposals:

Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

(b) With respect to petitions for rule making which conflict with the proposals in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. Comments and Reply Comments; Service. Pursuant to applicable procedures set out in 47 C. F.R. Sections 1.415 and 1.420, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.
